CIRCLE OF CARE

A resource center for healthy living

Mission Statement

To educate families on the options for healthy living and well-being so they can make informed health care choices that positively impact them today and in the future.

COMMUNITY RESOURCE CENTER

A VISION

The organization started with a vision to educate families about healthy living and well being. We have a desire to interconnect resources and services that will help families to make informed choices.

Currently, Circle Of Care has information and resources on issues including:

- Digestive Problems
- Autoimmune Dysfunction
- Mitochondrial Disorders
- Cancers
- Mental Health Disorders
- Seizures
- Learning Disabilities
- Diabetes
- ADD/ADHD/Autism
- Nutrition
- Vaccinations
- Detoxification
- Biomedical Interventions
- Natural Family Living
- Pregnancy/Birthing
- General Health
- Personal Experiences

Circle Of Care, a 501 (c) 3 non profit group, is continuing to expand it's resources which include a growing Lending Library. Circle Of Care was established with a generous donation from the East Central Iowa Autism Society. We wish to further collaborate with interested groups and individuals who share our vision.

One of the many resources which the center will offer is a free monthly "Saturday Morning Open House". This will be an informal setting to ask questions and gather information on healthy living.

Visit us online for Video Files, Seminars, Presentations, News and upcoming events.
